

## W11Y Rolling Machine

This machine used to make the steel plate into barrel shape、 Circular shape、 Conical sharp, etc. The upper roller can move vertically as well as horizontally, it can finish the pre-bending work and coiling work at the same machine.

The upper roller is drum-type design, so it has the anti-deformation function. There is equipped the support rollers under the lower rollers it can help to coil the high precision products.

The lower rollers are fixed symmetrically deployed relatively to upper roller; mechanical drive is employed for driving lower rollers. Upper roller ascends or descends at the central symmetric location of the lower rollers; the ascending and descending are hydraulic driven. The upper roller movement is PLC controlled and LCD display is employed for displacement.

Hydraulic drive is employed for dumping and resetting of the reverse head unit.

Moving control is employed for the control system; you can operation the machine at any position around the machine.

公司简介  
Company  
Introduction

南通东海机械制造有限公司（简称东海机械），位于江苏省南通市海安经济开发区，专业从事各种工业机械的研发、生产和销售。主要产品有：各种工业机械、各种工业产品。在南通市海安经济开发区内设有研发中心、生产车间、仓库、售后服务部等。2000年荣获江苏省科技进步奖，2001年荣获江苏省科技进步奖，2002年荣获江苏省科技进步奖，2003年荣获江苏省科技进步奖，2004年荣获江苏省科技进步奖，2005年荣获江苏省科技进步奖，2006年荣获江苏省科技进步奖，2007年荣获江苏省科技进步奖，2008年荣获江苏省科技进步奖，2009年荣获江苏省科技进步奖，2010年荣获江苏省科技进步奖，2011年荣获江苏省科技进步奖，2012年荣获江苏省科技进步奖，2013年荣获江苏省科技进步奖，2014年荣获江苏省科技进步奖，2015年荣获江苏省科技进步奖，2016年荣获江苏省科技进步奖，2017年荣获江苏省科技进步奖，2018年荣获江苏省科技进步奖，2019年荣获江苏省科技进步奖，2020年荣获江苏省科技进步奖，2021年荣获江苏省科技进步奖，2022年荣获江苏省科技进步奖，2023年荣获江苏省科技进步奖，2024年荣获江苏省科技进步奖。

Nantong  
Donghai

Nantong Donghai Machine Tool Co., Ltd. is a well-known name in the field of machine tool. Established in the year of 1958, we engaged in designing and making series of shearing machine, press brake and rolling machine in the brand of "YINGQU". Our factory is located in the most famous machinery town—LIBAO, Nantong City, Jiangsu Province, which is about 1 hour's express drive by car from Shanghai.

Our factory is equipped with sophisticated heavy-duty machinery and equipments capable of mass production machinery in accordance international standards. With a view to meeting the increasing market requirements, the management plan is expand the production facilities.

We take pride in our complete enterprise management personnel and a product design team with diverse backgrounds and experience. We endeavor to offer customerized products of international standards; our research and development department is involved in product development and innovations to meet the expectations of our clients. We always cooperate with some renowned colleges or institutes to improve the technology. All of your special requirements will be satisfied here.

We have been awarded for several times the "China's Leading Machine, Press Brake and Rolling Machine in 2004, we've been awarded the ISO9001 certificate in 2005.

Our mission is to continue to deliver excellent products, strive for continuous improvement and further increase our presence in the global market.

Welcome you to visit our factory.
